An interview was held on October 11, 2007 between Applicants' representative, Theodore M. Magee, and Examiner Vo. Examiner Vo indicated that the case could be placed in form for allowance if claim 1 was amended to include limitations to receiving the noisy speech signal, converting the noisy speech signal to the frequency domain, and taking the log of magnitude frequency values to form log magnitude frequency values. Examiner Vo also indicated that claim 12 would be allowable if similar limitations were added to claim 12. Examiner Vo indicated that these amendments could be made through an Examiner's amendment. Applicants' representative agreed to the amendments.
